

DEPARTMENT OF RESOURCE MANAGEMENT AND DESIGN APPLICATION

RESEARCH & PUBLICATIONS

DEPARTMENT PROJECTS

1. DIC Spoke Centre (2019 – present)

Lady Irwin College is a SPOKE Institute of Innovation Centre, University of Delhi under NIDI (national Initiative for Design Innovation) Scheme, Ministry of Human Resource Development (MHRD). It was held at the Department of Resource Management and Design Application, Lady Irwin College from December 2019 – February 2020. As a part of this, the department had organized various workshops and trainings, developed sustainable and inclusive products and participated in diverse conferences and seminars.

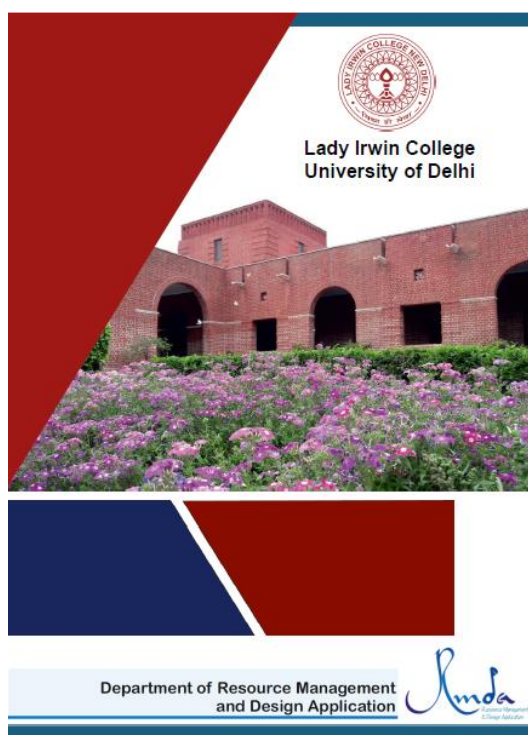

2. Segregation of organic –waste for Recycling and Treatment Project (2018 – present)

Department of Resource Management and Design Application in collaboration with Indian Pollution Control Association (IPCA) have taken initiative to install Aero-bins in the campus to upgrade the procedure of Solid Waste Management. Students of M.Sc. previous worked on this project as part of a subject curriculum. Campus is utilizing its organic waste to convert it into manure which is being used in organic farming.

3. *Paper Waste Management with Jaagruti (2016- Present)*

Faculty of Resource Management and Design Application Department has undertaken a project on paper recycling and tied up with 'Jaagruti- Waste Paper Recycling Services' for managing college's paper waste. All the used paper of campus sent to them which is recycled into useful products like notepads for use by college faculty and students.

4. *Training for International Abilympics (2018 - 20)*

The department of RMDA is collaborating with SARTHAK EDUCATIONAL TRUST organized a Trainers program for training people with disabilities in painting for National and

International Abilympics. Department faculties and Research scholars took active part in five day event held in March, 2020.

5. *Eco-Innovation (2016 - 2017)*

Department of Resource Management & Design application started initiative on sustainable use of paper with a competition called Campus Impact Challenge (CIC) in which department masters students had participated. CIC was sponsored with TERI & GENPACT. CIC is a youth initiative towards the awareness on environment and its aim was to bring a significant change in the campus. The project students undertook was titled as Eco- Innovation- A youth initiative towards sustainable consumption of paper.

6. *DU Innovation Project LI-305 (Waste to Wealth: Promoting Sustainable Consumption through Recycling of Paper Waste), 2015-2016*

The main aim of this project was to make the stakeholders aware about the concept of reuse and recycling of paper. The project also aimed to produce quality products with the paper thus recycled. The project was envisaged with the view of moving towards environment friendly and sustainable practices of reuse, reduce and recycle with both short term and long term benefits. The short term benefits include reducing paper waste and the long term benefit would towards the reduction of greenhouse gases by protecting trees which would have otherwise been cut for paper production. The project also sensitized the youth regarding intelligent use of paper and the benefits of recycling.

7. DU innovation project LI –304 (Developing sustainable products using garden waste), 2015-2016

The aim of the project was to develop eco-friendly products of utility for households and retail purposes using garden waste like dried leaves, twigs and grass. The project helped in understanding different ways garden waste products can be utilized for making sustainable products.

8. DU innovation Project LI-201 (Designing Solar engineered products for the Rural Population), 2014-2015

The aim of the project was to develop solar products which can solve the energy constraint problems of rural residents.

9. National Institute of Social Defence, Ministry of Social Justice & empowerment, (Subjective well-being of elderly living in old age homes; An exploratory study), 2012-2014

The project dealt with assessment of existing scenario of old age homes available to elderly in NCT. Need based interventions were designed and implemented in 12 old age homes in Delhi & NCR to enrich their quality of life. Impact of interventions on quality of life of elderly was assessed.

10. DU innovation Project LI-202 (creating social acceptance towards sustainability audit of electronic products in planning modern India)

The project aimed at formulating the criteria for sustainability audit of electronic gadgets so that consumers can select sustainable electronic products. The criteria developed will be useful for users, policy makers and manufacturers to ensure product sustainability. Sustainability audit criteria is a new concept as there is no such framework available for electronic products. Though we have energy efficiency rating for buildings and energy certification for BEE certified electronic products but there is none for sustainability of electronic products. By adopting sustainability audit of electronic products, carbon foot-printing could be reduced and thus environment could be protected from further damage.

11. DU innovation Project LI-101 (Multi-Criteria Framework for Sustainability Design Audit)

The collaboration and interaction with service center officials, e-waste recyclers (formal & informal), experts from legal departments, environmentalists, Ministry of environment and forest, manufacturers of electrical products, design professionals, auditors, etc. during the project provided intense insights to frame the criteria. The project directly dealt with a subject that is highly pertinent in the present scenario. The focus was on developing consciousness among the users, manufacturers, law makers, policy makers, e-waste handlers towards e-waste issues in the environment and the society, therefore, the manufacturers have to take the responsibility of using non-toxic materials that are sustainable and have proper standards for correct disposal.

12. DU innovation Project LI-102 (Generating Energy Consciousness among Rural Households)

The project dealt with the rural families of the two selected villages where Government had installed some RETs but were not being used by the residents. The project team was able to reinforce the existing programme by providing relevant information concerning functioning of RETs. Interventions during the project helped in addressing the barriers in adoption and befriending the new technology by bringing in day-to-day life. Adoption of renewable energy technologies led to change in their way of living and immense power saving - reported by the residents.

13. Ministry of Health & Family Welfare funded by World Bank (Nation-wide Survey and Capacity Building Programme for Street food Providers), 2005-2008

The Project was a great opportunity to survey the practices of street food service providers and explore the gaps for improving the safe services offered to customers. Capacity building for street food service providers and the challenges of its sustainability lies in the adoption of measures and translating it to practice by all stake holders. The research team worked on training manuals to initiate a Quality Literacy movement to ensure that safe and sound quality food should be accessible to the customers.

14. Department of Science & Technology Project (Eco-Water Literacy for Sustainable Management of Water), 2007

Climate change in particular exacerbates existing shortages of water. Women are largely responsible for water collection in their communities and are therefore more affected when the quality of water and its accessibility changes. In order to facilitate wide-spread eco-water literacy, a manual was developed comprising of significant issues pertaining to water.

15. Department of Science & Technology Project (Home Science Quest on Eco-Water Literacy), 2007

Exhibition and training were executed with respect to safe and efficient use of water so that water pollution, water wastage could be minimized and if possible eliminated. Consciousness for successful and practical recycling or reusing methodologies were shared with the help of IEC material (developed in the project).

The department was involved in other projects in the past listed as follows:

16. DDA slum wing (Dwelling Design: Infrastructure Facilities and Utilities in DDA Slums – User's Perspective) 1992

17. Delhi Social Welfare Board & Rotary Club, Chanakyapuri (Vocational Training Course in Pottery for Adult Women) 1994-1995

18. Delhi Social Welfare Board & Rotary Club, Chanakyapuri (Balwadi Nutrition Programme) 1994-1995

M.SC DISSERTATIONS

S.no.	Year	Title of Dissertation	Name of the Student	Name of supervisor
		2020-2021		
1.	2021	Circular approach to design rethinking: Special reference to cardboard and plastic bubble wrap packaging	Anmol Yadav	Dr. Sushma Goel Dr. Surbhi Chitkara
2.	2021	Sustainable behaviour adopted in the use of Home Furnishings: A study in residential units of Delhi NCR	Anukrit Dhanjal	Dr. T.G. Rupa Ms. Sakshi Wadhwa
3.	2021	KUND system of rainwater harvesting: A study in district Jhunjhunu, Rajasthan	Bhumika Choudhary	Dr. Meenal Jain Dr. Meenakshi Mital
4.	2021	Awareness generation regarding Solar Photo-Voltaic systems among residents of Burari	Gunjan Yadav	Dr. Meenal Jain Dr. Puja Gupta
5.	2021	A comparative study of furniture shopping modes in Delhi, NCR: Online Vs Offline	Hiral Jain	Ar. Anju Kakkar Dr. T.G. Rupa
6.	2021	Assessment of Efficacy of solid waste management in selected temples	Kanika	Dr. Sushma Goel Dr. Vaishali Gupta
7.	2021	Empowering Self Help Groups (SHG's) towards online marketing – A study in Delhi NCR	Lalita Rani	Dr. Puja Gupta Dr. Meenal Jain
8.	2021	Study of the Emerging Work from Home Trend: Challenges During Covid Times	Mahima Agarwal	Dr T.G. Rupa
9.	2021	An Appraisal of Physical Adaptations by Secondary School Students to Home	Manisha Singh	Dr. Mayanka Gupta

		Environment for Online learning		Dr. Sushma Goel
10.	2021	Strategies used by restaurants during COVID-19 pandemic: A study in Delhi NCR	Muskan Gupta	Dr. Meenakshi Mital Dr. Meenal Jain
11.	2021	Perspective of stakeholders towards organic food products: A study in Delhi	Nitika Agrawal	Dr. Puja Gupta Dr. Meenal Jain
12.	2021	Hybrid cars in Delhi NCR: A Stakeholders' perspective	Palak Gogia	Dr. Meenakshi Mital Dr. Meenal Jain
13.	2021	Study of Signage System used in Transportation Hubs of Delhi for Effective Information Transmission	Parul Yadav	Dr. T.G. Rupa
14.	2021	A Study of Biophilic Design Approach in Application of Interior Design Concepts	Shweta Thakur	Dr. Sushma Goel Dr. Sugandh Malhotra
15.	2021	Impact of COVID-19 outbreak on migrant workers in Uttar Pradesh	Simran Sethi	Dr. Shanta R. Kerketta Ms. Vishakha Sambhav
16.	2021	Empowering Stakeholders towards Star Labeled Appliances: A Study in Haridwar	Swati Sharma	Dr. Puja Gupta Dr. Meenal Jain
17.	2021	Online shopping behaviour of consumers during COVID-19 pandemic: A study in Delhi NCR	Tanu Sati	Dr. Meenal Jain Dr. Meenakshi Mital
18.	2021	Impact of Skill Building Initiatives on Economic Independence Among Women	Thuankimlakliu Chawang	Ar. Anju Kakkar Dr. Sushma Goel
19.	2021	Perspective of women towards biodegradable sanitary napkins: A study	Vaishali Nagar	Dr. Meenakshi Mital

		in Delhi NCR		Dr. Meenal Jain
20.	2021	Entrepreneurial development for the tribal women of Jharkhand	Vritika Kanwal	Dr. Shanta R. Kerketta
		2019-2020		
1.	2020	Workers' Well-being in Textile Industry : A study in Delhi NCR	Akansha Singh	Dr. Meenakshi Mital Dr. Meenal Jain
2.	2020	Workers' Well-being in Textile Industry : A study in Punjab	Ayushi Kanojia	Dr. Puja Gupta Dr. Meenal Jain
3.	2020	The grey project: suggestion for designing a specialized toolkit for doctors to investigate rape victims	Balpreet Kaur	Dr. Shanta R. Kerketta
4.	2020	Disaster Management Plan for Preparedness at Educational Institutions in Delhi, A Case Study	Bhakti Kashyap	Dr. Mayanka Gupta Dr. Awkash Kumar
5.	2020	Workers' Well-being in Textile Industry : A study in selected districts of Haryana	Chanchal	Dr. Meenakshi Mital Dr. Meenal Jain
6.	2020	Ergonomic risk factors for mobility impaired adults in ICT skill training centres	Deepa Lal	Ar. Anju Kakkar
7.	2020	Workers' Well-being in Textile Industry : A study in Haryana	Gurleen Ahuja	Dr. Meenakshi Mital Dr. Meenal Jain
8.	2020	Place-making in Urban Design: Focus on sustainable Landscaping	Irusha Bhardwaj	Dr. Sushma Goel Ms. Hriiyiphro Kayina
9.	2020	Workers' Well-being in Apparel Industry : A study in Delhi NCR	Kajal	Dr. Puja Gupta Dr. Rachna Dhingra
10.	2020	Emerging trends of co-working spaces in Delhi NCR: Stakeholders' perspective	Madhiha Zalem	Dr. T.G. Rupa Ms. Sakshi Wadhwa

11.	2020	Workers' Well-being in Apparel Industry : A study in selected districts of Haryana	Reena	Dr. Meenakshi Mital Dr. Meenal Jain
12.	2020	Maintenance Issues in High - Rise Residential Buildings	Ruchi Sharma	Ar. Anju Kakkar
13.	2020	Workers' Well-being in Apparel Industry : A study in Haryana	Sakshi Khanna	Dr. Puja Gupta Dr. Neelima Asthana
14.	2020	Sustainability in Interior Design Using the Concept of Refurbishing: A Study in Selected Restaurants of Delhi, NCR	Saveeraja	Dr. T.G. Rupa Ms. Vaishali Gupta
