The screenshot shows a Zoom meeting interface. The main screen displays a presentation slide titled 'India generates' with the following statistics:

- 10 million
- 3.5 million
- 1.36 million

tonnes of electronic waste every year!

The slide also features a cartoon illustration of a large pile of electronic waste (computers, monitors, etc.) with a small figure standing next to it, looking up at the pile. A fire is visible in the background of the illustration.

On the right side of the screen, there is a grid of video thumbnails showing participants in the meeting. The names of the participants are listed below their thumbnails:

- Swati Kwatra
- Priyankasharma
- shreya manchanda
- iPhone
- Deepak
- Divya Kalla
- shreya manchanda
- iPhone

At the bottom of the screen, there are controls for the meeting, including 'Unmute', 'Stop Video', 'Participants', 'Chat', 'Share Screen', 'Record', 'Reactions', and a 'Leave' button.

12. The story of E-waste in India

<p>1 MYTH: It's impossible to lose weight with Hypothyroidism. FACT: The truth is that losing weight can be hard for anyone- especially during your late 30s and early 40s, when metabolism slows and pounds can pile on. If your thyroid hormone dosage is appropriate, you should not have a tougher time shedding weight.</p>	<p>3 MYTH: You'll need Iodine supplements for thyroid disease. FACT: Don't take Iodine supplements without consulting your doctor. Iodine deficiency may or may not be the reason for your thyroid disease. Taking Iodine supplements may worsen your condition if you have hyperthyroidism.</p>
<p>2 MYTH: Only older women can develop thyroid problems. FACT: Thyroid disease can affect men and women at any age. However, women do have a higher chance of developing a thyroid problem.</p>	<p>4 MYTH: If you have a lump on your neck, you definitely have a thyroid problem. FACT: A lump on the neck is not necessarily a goiter (enlarged thyroid). While the thyroid is the most common thing that can enlarge in your neck, there are a lot of other things in the neck besides the thyroid.</p>
