

NATIONAL CONFERENCE ON LEARNING 2025

RE-IMAGINING CLASSROOMS: TRADITIONAL INDIAN KNOWLEDGE & FUTURE TECHNOLOGIES

DAY & DATE : FRIDAY, 28TH NOVEMBER , 2025 | DEPARTMENT OF EDUCATION, LADY IRWIN COLLEGE, UNIVERSITY OF DELHI

The 21st century is witnessing unprecedented transformations in the realm of higher education. The rise of future technologies, data-driven decision-making, and emerging digital technologies has redefined how knowledge is delivered, acquired, and assessed. In a world driven by speed and automation, education systems are at risk of becoming mechanistic and depersonalized. At the same time, there is a parallel movement towards reclaiming indigenous systems of knowledge and pedagogy, rooted in ancient traditions such as Yoga, Ayurveda, Nyaya, Vastu, Sanskrit literature, environmental knowledge, and ethical reasoning, ensures that learning retains a human-centric, value-based, and culturally relevant orientation. This connection between the past and present demonstrates that innovation can grow stronger when rooted in heritage. By combining modern science with cultural wisdom, we can create technologies and solutions that are not only advanced but also ethical, sustainable, and deeply human-centered. The National Education Policy (NEP) 2020 also emphasizes the importance of multidisciplinary learning, experiential pedagogy, value-based education, and the integration of Indian Knowledge Systems (IKS) and technology to build a holistic, inclusive and future-ready education system. In this changing context, this National Conference aims to explore the connections between traditional Indian knowledge and future technologies in re-imagining classrooms.
